

IMPORTANT UPDATE

May 13, 2021

Dear Golfers:

We hope that you and your families are doing well and staying safe during this 3rd wave of COVID-19 in Nova Scotia. Once again, a lot has transpired since we sent our initial communications in early February, but we are hopeful that with the rollout of the COVID vaccines and everyone “staying the blazes home” that we will once again overcome this wave and be able to enjoy a summer with lighter restrictions.

We have been monitoring all the information issued by our Provincial government and the impact that the 3rd wave has been having on our business community, individuals, and overall community.

Considering the current restrictions of no travel outside your community and reduced gathering limits to your immediate family until May 31, 2021, combined with the uncertainty of what will happen after this date, we have made the decision to reschedule the 2021 Summer Street Scramble into the fall and have confirmed the date of **Friday, September 24th, 2021**.

Although difficult, this decision was made to provide sufficient notice to all team members, sponsors, volunteers and of course the Abercrombie Golf and Country Club. We hope that this new date will work with your schedule and that you will still be able to participate in September.

We are committed to hosting this event in September and will continue planning a fun filled day for all participants and will provide updates throughout the summer months. Please note that the theme will continue as “Beach Party”.

If you do require additional information, please do not hesitate to get in touch with Paula Irving at paula@summerstreet.ca or 902-759-4780.

Sincerely,

Barry Hamilton
